

Company Profile

- 1. Safety and Quality:** Throughout the entire export process, Safe Agritrade gives safety and quality standards a top priority. They follow strict quality control procedures to ensure their agricultural goods meet the necessary standards and laws. By adhering to these safety and quality standards, you may establish a reputation for producing dependable and trustworthy goods on the global market.
- 2. Compliance with International Standards:** Safe Agritrade is knowledgeable about import/export procedures, certification requirements, and other international trade laws. They can help you navigate the intricate process of compliance, lowering the likelihood of mistakes or delays in your export operations.
- 3. Market Access:** Safe Agritrade has built relationships and alliances with global distributors and purchasers. By collaborating with them, you open up your market and expand your prospects for growth while having access to a larger pool of potential clients. They can point you in the direction of the most lucrative export destinations because they have experience navigating a range of marketplaces.
- 4. Risk Mitigation:** Safe Agritrade is aware of the dangers involved with cross-border trade, including shifting political landscapes, unpredictable economic conditions, and shifting commerce regulations. They can help you manage these risks successfully thanks to their expertise, experience, and risk-reduction techniques.
- 5. Dependable Distribution and Logistics:** Managing distribution and logistics is important when exporting agricultural goods. With cooperation with reputable logistics companies, Safe Agritrade has a wide distribution network. As a result of the effective procedures they have built for handling packaging, transportation, and documentation, your products will be delivered in a secure and timely manner. Before making a decision, it is critical to undertake thorough research, weigh the pros and cons of various export possibilities, and evaluate aspects such as cost, trade terms, and client preferences. You may also want to conduct some research on your alternatives or solicit feedback from other exporters who have utilized Safe Agritrade to make an informed decision that corresponds with your company's goals and values.

Product Description

Corn Liquid Glucose from Safeagri

Corn liquid glucose, also known as corn syrup or glucose syrup, is a sweetener derived from corn starch. It is highly concentrated and contains a mixture of glucose, maltose, and higher sugar molecules. It has a thick and syrupy consistency and is hygroscopic, making it valuable in food manufacturing. Glucose syrup is a commercial sweetener with little nutritional value. A sweetener made from maize starch, corn liquid glucose is often referred to as corn syrup or glucose syrup. It is made through the process of hydrolysis, which reduces the complex sugar molecules found in starch. It has a higher sweetness than other liquid sweeteners, a thick, syrupy viscosity, the ability to hold moisture, and an extended shelf life. To improve the shelf stability of foods like syrup, baked products, and sweets. Corn liquid glucose has a mild and neutral flavor profile, making it suitable for use in a variety of food and beverage applications. It acts as a binding and texturing agent, prevents sugar crystallization, and has functional properties in baking. In food manufacture, it functions as a binding and texturing agent, avoiding crystallization in confectionery items and contributing to browning, moisture retention, and softness in baking. It is also employed in the manufacture of medicines, cosmetics, and industrial procedures that require a liquid sweetener or texturing.

Major Import Markets: South Africa, the United States, Argentina, Brazil, and Burma

Scientific Name	Zea Maize
Store Type	Cool and Dry Place
Color	Transparent
Moisture	24% max
Purity	99.5% max
Solubility	96% Max
PH	4.77% Max
Melting Point	146°C
Specific Gravity	1.43g/ml
Odour	Odourless
Fructose	55%Max
Taste	Modatre & Pure Sweet
Clarity	Clear
Dry Solution	85.20
Dextrose Equivalent	0.293%Max
Starch	Nill
